Appendix A – Information Summary dated October 18, 2015

Appendix B – Statement of Receipts and Disbursements for the Period October 2, 2015 to November 13, 2015

# Introduction and background

## Introduction

1. Pursuant to an Order (the "**Receivership Order**") granted by the Court of Queen's Bench of Alberta (the "**Court**") on October 2, 2015 (the "**Date of Receivership**"), Deloitte Restructuring Inc. ("**Deloitte**") was appointed as receiver and manager (the "**Receiver**") of Groundforce Geodrilling Solutions Inc. ("**Groundforce**" or the "**Company**"). A copy of the Receivership Order and other information regarding the receivership proceedings can be accessed on Deloitte's website (the "**Receiver's Website**") at <http://www.insolvencies.deloitte.ca/en-ca/Pages/Groundforce-Geodrilling-Solutions-Inc.aspx>.
2. The Receivership Order was granted as a result of an application by HSBC Bank Canada ("**HSBC**"), who holds registered security over all of the Company's present and after-acquired real and personal property (the "**HSBC Security**").
3. The Receiver's independent legal counsel, McCarthy Tetrault LLP, has conducted an independent review of the validity and enforceability of the HSBC Security and has advised that the HSBC Security is valid and enforceable and ranks in priority to the unsecured creditors of Groundforce and to any subsequently appointed trustee in bankruptcy (the "**Security Opinion**").

## Notice to reader

4. In preparing this report, Deloitte has relied on unaudited financial information, the books and records of the Company and discussions with former management of the Company ("**Management**"), interested parties and the stakeholders of the Company. The Receiver has not performed an independent review or audit of the information obtained.
5. All amounts in this report are in Canadian dollars unless otherwise indicated.

## Background

6. Groundforce is a private company that was incorporated in Alberta in June 2010. The Company provided drilling and associated oilfield services to the energy sector in Western Canada with its fleet of 12 drilling rigs of various sizes and configurations. The Company also provided project management services for drilling programs, drilling for geothermal wells and pilings for construction and maintenance projects.
7. HSBC is the principal lender to the Company and holds various first ranking security positions as against the Company and its assets. HSBC was owed approximately \$17.0 million (the "**HSBC Indebtedness**") from the Company at the Date of Receivership. Wexford Capital is the majority

shareholder of Groundforce and also had the majority of unsecured promissory notes issued by the Company and was owed approximately \$4.7 million at the Date of Receivership.

8. This report constitutes the first report of the Receiver (the "**First Report**"). The First Report, along with the confidential supplement to the First Report dated November 13, 2015 (the "**Confidential Report**"), are being filed in support of the Receiver's application to this Honourable Court on November 19, 2015 seeking the following:
  - a) Approval of the reported actions of the Receiver to date in respect of administering these receivership proceedings;
  - b) Approval of the auction proposal from Maynards Industries Ltd. ("**Maynards**") for the sale of the Company's assets;
  - c) Approval of the future distribution of funds to HSBC as they relate to the HSBC Security and as they become available up to the amount of the HSBC Indebtedness; and
  - d) An Order sealing the Confidential Report in the Court file.

#### **Powers of the Receiver**

9. The Receiver's powers are detailed in Paragraph 3 of the Receivership Order and include the power to take and maintain possession and control of the assets of the Company; the power to manage, operate and carry on the business of the Company; and the power to market and sell the assets of the Company (subject to Court approval if one sale exceeds \$250,000 or if in the aggregate the sales exceed \$1,000,000), among others.
10. The Receivership Order also empowers the Receiver to borrow by way of a revolving credit or otherwise, such monies from time to time as it may consider necessary or desirable, provided that the outstanding principal amount does not exceed \$1,000,000 (or such greater amount as the Court may by further Order authorize) (the "**Borrowing Facility**").

#### **Possession and Control of the Assets**

11. Groundforce's corporate head office was located in leased premises at 650, 910 7<sup>th</sup> Avenue SW in Calgary (the "**Calgary Office**"). At the Date of Receivership the Company also conducted operations from a leased yard, workshop and office located at 717 McCool Street, Crossfield, Alberta (the "**Crossfield Location**").
12. The majority of the equipment owned and leased by the Company was located at the Crossfield Location.
13. The Receiver took the following steps with respect to the assets and operations of the Company:
  - a) Attended at the Calgary Office and the Crossfield Location on the Date of Receivership to take possession and control of the assets, take an inventory of the assets, meet with employees and post notices of the receivership proceedings;
  - b) Secured the manual and electronic books and records of the Companies;

- c) Terminated all Groundforce employees effective on the Date of Receivership;
- d) Arranged to retain key employees to assist with administrative duties, financial reporting and the locating, transporting, and securing of the Company's assets;
- e) Cancelled the security pass access to the Calgary Office for the employees that were not being retained as contractors subsequent to the receivership;
- f) Arranged to have third party security in place at the Crossfield Location to monitor the site and the assets thereon;
- g) Arranged to maintain the insurance coverage over the Company's' assets and had the Receiver added as a loss payee on the existing insurance policy of the Company;
- h) Arranged for the redirection of the mail of the Company to the Receiver's office;
- i) Vacated the Calgary Office on October 9, 2015 and consolidated the Company's books and records and administrative functions at the Crossfield Location;
- j) Contacted the third parties storing any assets of the Company and provided a copy of the Receivership Order and ensured the assets were safe and secure; and
- k) Engaged third party transportation companies to assist with moving drilling rigs and related assets from an active drilling site near Outlook, Saskatchewan and from Medicine Hat and began consolidating most of the assets at the Crossfield Location.

# Operations

## Drilling Operations

14. On the Date of Receivership, 11 of the Company's 12 drilling rigs were not operating and were being stored in either the Crossfield Location or at other third party storage yards in Alberta. Following an analysis of cash flow projections prepared by Management prior to the Date of Receivership, it was determined that the Company was incurring significant ongoing operating losses, the ongoing operations were not viable with the limited work in the pipeline, and the likelihood of completing a going concern sale was remote. Accordingly, the Receiver, with the concurrence of HSBC, decided to cease the Company's operations at the Date of Receivership.
15. The only active drilling contract at the Date of Receivership was a potash drilling project near Outlook, Saskatchewan and, at the Date of Receivership, Groundforce had just finished two of the three wells that were part of the overall contract. The Receiver had discussions with Management and company staff and the customer and determined that the costs to finish the final well would exceed the expected revenue and no other suitable and economic arrangements could be arranged to complete the work. The customer had paid for the completion of the two wells prior to the Date of Receivership. The Receiver engaged the existing rig workers on a contract basis to pack up, winterize and secure the drilling rig and related equipment and the assets were subsequently transported from the customer's site to a secure yard in Kindersley, Saskatchewan.

## Calgary Office

16. As previously noted, the Company's administrative functions that were previously performed from the Calgary Office were moved to the Crossfield Location and, on October 9, 2015, the Receiver vacated the Calgary Office and the lease was disclaimed.

## Crossfield Location

17. Prior to acquiring the Crossfield Location, the Company had previously operated from two separate yards near Crossfield, Alberta. The Company purchased the Crossfield Location in 2014 and consolidated operations at the Crossfield Location shortly thereafter.
18. In order to reduce its debt, the Company listed the Crossfield Location for sale and executed a sale and leaseback transaction for the Crossfield Location on February 18, 2015. Under the terms of the agreement, Groundforce executed a 10-year lease (the "**Crossfield Lease**") with the purchaser, SKBL Holdings Ltd ("**SKBL**"), whereby Groundforce would pay base rent of \$27,500 per month to SKBL for the first two years with incremental increases thereafter. The Crossfield Lease included a \$1.0 million

prepayment to SKBL (the "**Crossfield Lease Deposit**") as a security deposit to be applied against the first three years of base rent. The Receiver understands through discussions and correspondence with SKBL that the Crossfield Lease Deposit is being held in a separate trust account and a balance of approximately \$840,000 remains as of October 26, 2015.

# Assets

## Accounts receivable

19. At the Date of Receivership, the Receiver obtained a copy of the Company's accounts receivable sub-ledger, which indicated that Groundforce was owed approximately \$57,000 from one customer. The Receiver has written to the customer notifying them of the appointment of the Receiver and requesting payment for the outstanding invoices. The Receiver is advised by Management that this debt should be fully recoverable.
20. In addition to the above, Management advised that the Company was owed approximately \$123,000 for drilling work completed for a customer in 2013. The Company has previously negotiated a partial repayment of this debt, but negotiations broke down and Groundforce had engaged counsel to file a statement of claim with the Court. The Receiver is currently determining whether it is commercial to continue to pursue collection of this debt, including serving the statement of claim upon the debtor and commencing litigation.

## Deposits

21. As outlined previously, one of the Company's assets is the Crossfield Lease Deposit which is subject to the Crossfield Lease. The Receiver understands that HSBC is looking at avenues to recover the Crossfield Lease Deposit and has initiated proceedings to petition the Company into bankruptcy. Deloitte has consented to act as the trustee in bankruptcy of the Company.

## Inventory

22. The Company has various spare parts and other inventory being stored at the Crossfield Location. The Company does not have a detailed listing of the inventory and the realizable value is not significant.

## Equipment and vehicles

23. The net book value of the shop and office equipment, drilling rigs and related equipment and vehicles of Groundforce (the "**Equipment and Vehicles**") was reported by Management to be approximately \$41.3 million as at July 31, 2015. The Equipment and Vehicles consist of approximately 100 pieces of equipment including drilling rigs, rig carriers, doghouses, mud pumps, pipe carriers, service trucks, loaders, trailers, pickup trucks, forklifts and other machinery used by Groundforce.
24. As of the date of the First Report, there are two drilling rigs being stored at no cost in secure yards in Lac la Biche, Alberta and La Corey, Alberta and one drilling rig is being stored at no cost in a secure yard in Kindersley, Saskatchewan. These three drilling rigs have not been consolidated in the Crossfield

Location due to both a lack of available space and due to the costs of transportation. The remainder of the Equipment and Vehicles are being stored in the Crossfield Location.

25. Prior to the Date of Receivership, HSBC engaged Maynards Appraisals Ltd. to perform a formal appraisal (the "**Appraisal**") of the significant Equipment and Vehicles of the Company. The appraisal was finalized and provided to HSBC and the Receiver on October 13, 2015. Neither the Receiver nor HSBC has released the Appraisal to any other party due to the risk of impeding or limiting the potential realization of the Equipment and Vehicles. A copy of the Appraisal is included in the Confidential Report.
26. Some of the Equipment and Vehicles of the Company are leased. The Receiver has been working with counsel and some auctioneers to review the lease agreements and determine the nature of the lessor's interest and whether there is equity in the specific equipment or vehicle. For the leased Equipment and Vehicles in which there is no equity, the Receiver has been releasing its interest in the leased equipment and it is being returned to the lessor.
27. The Company has six separate leases in place with Summit Acceptance Corp. ("**Summit**") for pick-up trucks, of which five of the leases appear to have equity based on the underlying values of the vehicles compared to the lease payout amounts. The Receiver has released the one vehicle with no equity to Summit and is working with Summit to come to a suitable arrangement for the timing of the payout of the five remaining leases with equity (the "**Summit Leased Vehicles**"). Counsel has reviewed the Summit leases and determined that Summit has valid and enforceable security over the Summit Leased Vehicles.

#### **Real estate**

28. Prior to the Date of Receivership, the Company had entered into a purchase and sale agreement to sell its former premises at 805-809 Laut Ave, Crossfield, Alberta, for \$1.05 million. The sale of this property closed on October 1, 2015 and the proceeds from the sale were held in trust by the buyer's counsel while the discharge of HSBC's mortgage and transfer were processed by Alberta Land Titles.
29. The Receiver received net proceeds of \$955,320 from the sale on November 5, 2015.
30. The Receiver is not aware of any other assets of the Company.

# Sale Process

31. The Receiver engaged in discussions with several parties, including Management, with respect to a process to sell the assets of the Company and to determine who may be interested parties (including those parties that had expressed interest in the assets in the past).
32. Starting on October 5, 2015, the Receiver also began discussions with several auction companies and equipment brokers to gain their views on the market for the assets and potential marketing and sales strategies. Concurrently, the Receiver also reviewed a process for seeking offers for the purchase of some or all of the Company's assets and discussed a sales process with HSBC. As part of these discussions and with the current state of the oil and gas market, and with the concurrence of HSBC, the Receiver decided to run a more targeted and short term sales process to gauge the interest levels in the market and the amounts that parties may be willing to offer for the assets.
33. As part of the sales process, the Receiver prepared an information summary which included a detailed listing of the significant Equipment and Vehicles being offered for sale along with the related terms and conditions of the sales process (the "**Information Summary**"). The Information Summary was distributed to auctioneers and other interested parties on October 21, 2015 and a copy of the Information Summary was also uploaded to the Receiver's Website. A copy of the Information Summary is attached to the First Report as **Appendix A**.
34. The salient terms and conditions of sale included in the Information Summary were as follows:
  - a) The Receiver was seeking offers and/or proposals from auction companies, brokers or other parties for the realization of all of the assets of Groundforce;
  - b) The assets of the Company were being offered for sale on an "as is, where is" basis;
  - c) The Receiver would not be obligated to accept the highest offer, or any proposal;
  - d) Asset viewings were to be coordinated with the Receiver;
  - e) Proposals and offers were to be submitted by November 5, 2015 (the "**Submission Deadline**"); and
  - f) Parties seeking to purchase some or all of the assets would be required to submit a standard form of offer prepared by the Receiver, a 20% deposit and would have to be prepared to close the sale on or around November 30, 2015.
35. Interested parties were identified through discussions with Management, Deloitte Corporate Finance, industry contacts and industry contact lists. In addition, several parties contacted the Receiver directly, or through HSBC, expressing an interest in purchasing the assets of the Company.

36. The Information Summary was provided to or requested by sixteen interested parties (the "**Interested Parties**") and eleven auctioneers (the "**Auctioneers**").
37. During the sales process, six of the Auctioneers and seven of the Interested Parties inspected the assets of the Company and met with the representatives of the Receiver and/or Management to answer any queries regarding the assets.
38. At the Submission Deadline, the Receiver received the following offers and proposals:
  - a) Four offers from the Interested Parties and one offer from one of the Auctioneers to purchase specific assets of the Company;
  - b) Three offers from Interested Parties to purchase all of the assets of the Company; and
  - c) Five auction proposals from the Auctioneers.
39. The five offers received for the purchase of specific assets did not exceed the relevant forced sale value ("**FSV**") included in the Appraisal and the Receiver does not propose to accept any of these offers.
40. The three offers received to purchase all of the assets of the Company did not exceed the FSV included in the Appraisal. Subsequent to the Submission Deadline, the Receiver contacted two of the interested parties asking whether they would be prepared to increase their offers. One party declined to increase their offer and other party indicated they may increase their offer if they knew they were the successful bidder. The Receiver's belief is that the party would not be willing to increase their offer to be close enough to the FSV included in the Appraisal and does not propose to accept any of these offers.
41. The Receiver has reviewed the five auction proposals received from the auctioneers. The proposals are all for straight auction arrangements with no net minimum guarantees or en-bloc cash offers. The Auctioneers are generally proposing similar strategies to try and pre-sell the drilling rigs privately prior to auction and then moving to auction the remaining drilling rigs and other assets after a certain private sale process timeframe has expired. The marketing costs and selling commissions range across the auction proposals and there is generally flexibility amongst the auctioneers on the timing of a final auction of the remaining assets.
42. The Receiver held further discussions with three of the Auctioneers who were considered the most suitable for the sale and/or for which the Receiver has comfort with based on past experience.
43. Based on the sale process and the related discussions and auction proposals and offers received, and the current state of the oilfield services industry and oil and gas market in general, the Receiver is of the view that acceptance of an auction proposal, with the provision of private sales before a final auction, should result in the highest return to the creditors.
44. The Receiver is recommending the acceptance of the Maynards auction proposal (the "**Maynards Proposal**") for the reasons outlined in the Confidential Report. The Maynards Proposal is more fully described in the Confidential Report along with the other auction proposals and offers received.
45. The Receiver has discussed and shared the offers and proposals received through the sales process with HSBC and HSBC is in agreement with accepting the Maynards Proposal to sell the assets of the Company.

# Creditor claims

46. As noted previously, HSBC is the principal secured creditor of the Company, was owed approximately \$17.0 million at the Date of Receivership and has valid and enforceable security pursuant to the Security Opinion. Based on the Security Opinion, the Receiver is seeking approval from the Court to approve the future distribution of funds to HSBC, as they relate to the HSBC Security and as they become available, up to the amount of HSBC Indebtedness.
47. Other secured creditors include several leasing companies who hold specific security over pieces of equipment, vehicles, and office equipment. As outlined previously, the Receiver and counsel are reviewing the security agreements in place between the Company and the respective secured creditors and are assessing any priority claims and have released, or will release, the underlying leased assets if the security is determined to be valid and there is no equity in the lease. As of the date of the First Report, the only leased assets that appear to have equity are the Summit Leased Vehicles and Summit will be paid out on these underlying leases.
48. The Company's records do not indicate a debt owing to the Canada Revenue Agency ("**CRA**") in relation to payroll source deductions or GST, however the CRA has not yet conducted a payroll and GST trust audit on the Company as at the date of this First Report and additional liabilities may be assessed.
49. At the Date of Receivership, there were twenty-five (25) outstanding employee claims for unpaid wages, vacation pay and termination pay. Twenty-three (23) of these claimants may be eligible for an advance under the Wage Earners Protection Program which may result in a potential priority-claim by Service Canada of up to \$46,000.
50. As at the Date of Receivership, Groundforce listed unsecured creditors with claims of approximately \$6.0 million.

# Statement of Receipts and Disbursements

51. The Receiver has prepared a Statement of Receipts and Disbursements for the period of October 28, 2015 to November 13, 2015 for Groundforce, a copy of which is attached to the First Report as **Appendix B**.
52. As at the date of this First Report, the Receiver has realized sufficient funds from the collection of property sale proceeds to not require the Court authorized Borrowing Facility to fund the receivership proceedings.

# Approvals sought

53. As a result of the foregoing, the Receiver respectfully requests the following:

- a) Approval of the reported actions of the Receiver to date in respect of administering these receivership proceedings;
- b) Approval of the Maynards Proposal for the sale of the Company's assets;
- c) Approval of the future distribution of funds to HSBC as they relate to the HSBC Security and as they become available up to the amount of HSBC Indebtedness; and
- d) An Order sealing the Confidential Report in the Court file.

Appendix A –  
Information Summary dated October  
18, 2015

# Deloitte.

GroundForce GeoDrilling Solutions Inc.,  
In Receivership  
Information Summary

October 18, 2015

# GroundForce GeoDrilling Solutions Inc.

## Background

On October 2, 2015, Deloitte Restructuring Inc. was appointed as Receiver and Manager (the "Receiver") of GroundForce GeoDrilling Solutions Inc. ("GroundForce" or the "Company") pursuant to an Order of the Honourable Justice C. M. Jones of the Court of Queen's Bench of Alberta (the "Court").

GroundForce provided contract drilling services to the oil, gas and mining industries in Western Canada. The Company had also recently provided drilling for geothermal wells and pilings for construction/maintenance programs. GroundForce is no longer operating.

The Receiver is currently seeking proposals from auction companies, brokers or other parties for the realization of all of the assets of GroundForce on behalf of the Receiver ("Proposal(s)"). Any Proposals must include the realization methodology, timeframe, and any related costs. The Receiver is also considering offers for the purchase of some or all of GroundForce's assets ("Offer(s)").

## Assets

The Company maintains a fleet of twelve drilling rigs of various sizes and capabilities:

- Rig #1 – Ingersoll Rand D5755628
- Rig #2 – Ingersoll Rand IRT60
- Rig #3 – 2010 Foremost DR-24
- Rig #5 – 1998 Foremost Explorer
- Rig #6 – 1999 Foremost Explorer
- Rig #7 – 1995 Foremost CSR1000
- Rig #8 – 2011 Schramm/Kimble TXD Trailer Mounted/Gooseneck
- Rig #9 – 2011 Schramm/Kimble TXD Trailer Mounted/Gooseneck
- Rig #10 – 2006 Schramm T685WSP
- Rig #11 – 2006 Schramm T685WSP
- Rig #12 – 2006 Schramm T685WSP
- Rig #14 – 2014 Schramm/Kimble TXD Trailer Mounted/Gooseneck

A detailed listing of the rig assets and other equipment and vehicles, along with their location is attached as "Schedule 1". Further specifications and details for the drilling rigs are available at <http://www.groundforcedrilling.com/>. Office furniture and equipment, spare parts and supplies inventory, and other sundry assets are not included in Schedule 1, but together with the other assets are defined herein as the "Assets".

## Offer and/or Proposal Deadline

All Offers and Proposals must be submitted in writing and received by Luke Alliband of the Receiver's office at 700, 850 - 2 Street SW, Calgary, AB T2P 0R8 by no later than **12:00pm Mountain Time on Thursday the 5<sup>th</sup> day of November, 2015.** A form of Offer to purchase and the related terms and conditions of sale are available upon request. Offers must be made using the Receiver's approved form of Offer.

# GroundForce GeoDrilling Solutions Inc.

## Terms and Conditions

The Receiver is not in any way under any obligation to take the highest Offer or Proposal given consideration to other factors and all decisions respecting the acceptance by the Receiver of any Offer or Proposal shall be made at the Receiver's sole discretion.

Any Offer or Proposal submitted to the Receiver must provide the following:

- That the acceptance by the Receiver of any Offer or Proposal will be subject to the approval of the Court;
- That the Assets are to be disposed of by the Receiver on an "as is, where is" basis; and
- That the Receiver makes no representations, expressed or implied, as to the description, condition, suitability for purpose, size, quantity or value of any of the Assets.

## Questions / Further Information and Asset Viewings
