ENDORSEMENT

- [1] This motion can be placed on the regular motions list for September 26, 2025. The motion record is to be served.
- [2] If the matter is opposed, the motions judge will determine if the matter can be heard on a regular motions list (59 minutes or less) or if a longer motion date is required. The practice in this region is for parties to attend triage court to either set a timetable for necessary steps to be completed or to set a long hearing date if the timetable has been completed.
- [3] If the motions judge is of the view that this matter cannot be heard in under 59 minutes, they may also consider whether the matter is urgent and requires an earlier hearing date without proceeding to triage court.
- [4] Any material uploaded to Case Centre must be hyperlinked. The index is to be hyperlinked as are all exhibits in the affidavit. The plaintiff's 687 page motion record is not hyperlinked. This is unacceptable as counsel are expected to know

how to properly upload documents after several years of using Case Lines /Case Centre.

A handwritten signature in black ink, appearing to read "R. Shaw", is positioned in the upper right quadrant of the page. The signature is written in a cursive style. Below the signature, there is a faint, light blue rectangular area that appears to be a placeholder or a background element.
