FIRST INFORMATION OFFICER REPORT

INTRODUCTION

1. On August 2, 2010, Compania Mexicana De Aviacion, S.A. de C.V. (“Mexicana” or the “Company”), commenced proceedings under the Mexico’s *Ley de Concursos Mercantiles* (“Mexican Proceedings”).
2. On August 2, 2010, Maru E. Johansen (“Foreign Representative”), sought certain protections in the United States pursuant to Chapter 15 of Title 11 of the United States Bankruptcy Code (“Bankruptcy Code”). On August 3, 2010, the U.S. Bankruptcy Court granted a recognition order recognizing the Foreign Representative and the Mexican Proceedings as a foreign main proceeding pursuant to Chapter 15 of the Bankruptcy Code (“Chapter 15 Proceedings”).
3. On August 5, 2010, the Foreign Representative brought an application (the “CCAA Proceedings”) before the Canadian Court pursuant to Part IV of the *Companies Creditors Arrangement Act*, R.S.C. 195, c. C-36, as amended (“CCAA”), and obtained an order (the “Canadian Recognition Order”), which among other things: (i) recognized the Mexican Proceedings as a “foreign main proceedings”; (ii) recognized Maru E. Johansen as foreign representative as defined in section 45 of the amended CCAA; (iii) granted a stay of proceedings against the Company until November 10 2010; (iv) appointed Samson Bélair Deloitte & Touche Inc. (“Deloitte”) as Information Officer and; (v) declared an administrative charge of \$250,000. A copy of the Canadian Recognition Order is attached as Exhibit “A.”
4. Following its appointment as Information Officer, Deloitte, in accordance with Section 53 (b) of the CCAA and paragraph 26 of the Recognition Order, coordinated the publication of notice of this CCAA

Proceedings and the Mexican Proceedings in the National Post and La Presse (collectively the “Notices”) on August 13 and August 20, 2010. A copy of the Notices is attached as Exhibit “B.”

5. The Canadian Recognition Order requires that the Information Officer deliver a report to the Court at such times and intervals as it deems appropriate and, in any event, at least once every three months on the status of the proceedings, the foreign proceedings and such other information that the Information Officer deems to be material. This report is filed pursuant to the requirements of the Canadian Recognition Order. The Information Officer has responded to all reasonable information requests from stakeholders as described in paragraph 16 of the Canadian Recognition Order.
6. The purpose of this first report of the Information Officer (the “First Report”) is to provide the Canadian Court with information concerning the following:
 - Background on Mexicana’s business and global and Canadian operations;
 - Update on Mexicana’s restructuring initiative to date;
 - Update on Mexican Proceedings;
 - Update on the CCAA Proceedings and Chapter 15 Proceedings; and,
 - The activities of the Information Officer since August 5, 2010.

TERMS OF REFERENCE

7. In preparing this report, Deloitte has relied upon unaudited financial information, the Company’s books and records, financial information prepared by the Company and its advisors, discussions with management of Mexicana and its representatives and advisors. In addition, Deloitte has reviewed the publicly available information filed in the Mexican Proceedings and the CCAA Proceedings. Deloitte has not audited, reviewed, or otherwise attempted to verify the accuracy or completeness of the information and, accordingly, Deloitte expresses no opinion or other form of assurance on the information contained in this report.
8. Some of the information referred to in this report may consist of or include forecasts and/or projections. An examination or review of financial forecasts and projections, as outlined in the Canadian Institute of Chartered Accountants Handbook, has not been performed. Readers are cautioned that since projections are based upon assumptions about future events and conditions that are not ascertainable, actual results will vary from the projections, even if the assumptions materialize, and the variations could be significant.
9. Deloitte has requested that Mexicana bring to its attention any significant matters that were not addressed in the course of its specific inquiries. Accordingly, this report is based solely on the information (financial or otherwise) made available to Deloitte.
10. All references to dollars in this report are in Canadian currency unless otherwise noted. Capitalized terms not defined in this First Report are defined in the Initial Order or in the Gonzales Affidavit.

BACKGROUND

Summary of key elements of the Mexican Proceedings

11. Included in the application material for the Canadian Recognition Order was the affidavit of Jalme René Guerra Gonzalez, a counsel for Mexicana, dated August 5, 2010 (the “Gonzalez Affidavit”). The Gonzalez

Affidavit contains a high-level summary of the Mexican Proceedings as detailed in the following paragraphs:

- Once a formal commencement order is issued by the Mexico Court, restrictions are imposed on the rights and interest of various parties, including creditors, lien holders and equity groups.
- Under the Mexican Proceedings, the Mexico Court will designate a conciliador (“Conciliador”). The Conciliador is responsible for mediating and negotiating between the debtor and its creditors, and is also responsible for proposing a reorganization plan. In addition, the Conciliador is empowered to (i) accept or reject executor contracts (ii) take on additional debt; and (iii) permit the sale of post petition assets outside the ordinary course of business.
- A reorganization plan must be submitted within one year. If within that time, a reorganization plan has not been proposed, the debtor will be directed by the court to enter into liquidation proceedings.
- The Mexican Business Reorganization Act provides for special rules applicable to entities operating Public Services under a concession title, such as Mexicana. The authority granting the concession title will have the sole power and discretion to propose the appointment, removal and substitution of the Conciliador and will supervise its activities. In the case of Mexicana, the authority that granted the concession title was the Mexican Ministry of Transport and Communications (the “SCT”), therefore, they are the administrative authorities that are participating in the Mexican Proceedings.
- Under the Mexican Proceedings, a reorganization plan must be approved by Recognized Creditors representing over 50% of the sum of the recognized amount of all of the regular Recognized Creditors. Recognized Creditors shall mean those creditors recognized as such by the debt recognition, ranking and preference judgment.
- Any reorganization plan must be on notice to the SCT, who may exercise a veto power during the five days time frame beginning the day after the agreement is submitted to the judge.

Mexicana's Company Overview

12. Mexicana was founded in 1921. It is the airline with the fourth longest tradition of airline services in the world. Mexicana is the airline with the most extensive international coverage from Mexico and the leading transportation company between Mexico and the United States of America.
13. Mexicana serves more than 39 airports located in nine countries over three continents. In 2009, Mexicana carried just over 11 million passengers using a fleet of some 110 aircrafts for revenues above \$2 billion. Mexicana employed more than 5,300 employees worldwide. From its operation hub at the Benito Juarez International Airport in Mexico city, Mexicana flew to approximately 65 domestic and international destinations including, the United-States, Canada, Central America, South America and Europe before the suspension of its flights.
14. Before the transaction described in futher detail in paragraph 20 of this report, Mexicana was owned (99.81%) by Nuevo Grupo Aeronautico, S.A. de C.V. (“Grupo Nuevo”), which is a privately-owned company, and by Aeropuertos y Terrenos, S.A. de C.V. (0.16%).
15. Mexicana is an obligor under the terms of a Credit Agreement with Banco Mercantil del Norte, S.A., dated as of April 17, 2008, pursuant to which Mexicana and affiliated non-debtor companies have approximately US\$123 million of indebtedness. Mexicana’s total liabilities are estimated at \$US1.2 billion, whereas the value of its assets, globally, is currently estimated at US\$783M.

Mexicana's Canadian operations

16. Mexicana operates internationally on a consolidated basis from Mexico and its decision center is based in Mexico City. There are no stand-alone Canadian operations, and all Canadian operations are fully integrated into Mexicana's global network.
17. Mexicana conducts business in Canada from the Vancouver International Airport, Toronto Pearson International Airport, Calgary International Airport and Montreal Pierre Elliot Trudeau International Airport. At the beginning of the Canadian Proceedings, there were approximately 20 employees in Canada, none of whom are unionized. At the moment of writing this report, the number of employees in Canada has been reduced to five. As per Mexicana's management, the employees temporary laid off have not been paid any severance or vacation since Mexicana plans to recall these employees when operations will eventually resume. The employees that are still working for Mexicana in Canada have been paid on a regular basis according to Mexicana's management.

MEXICANA'S RESTRUCTURING INITIATIVES

18. On August 28, 2010, Mexicana announced the suspension of its flight services due to its lack of liquidities.
19. Mexicana's goal is to restructure its affairs to withstand economic fluctuations by generating profits without overly relying on future traffic demand. Mexicana announced the following restructuring initiatives with the objective of substantially reducing its cost structure:
 - Reduce the size of operations, including the return of numerous aircrafts to their lessors;
 - Withdraw from several regions and discontinue services on several routes. Mexicana's objective is to resume operations with only 21 aircrafts and 21 routes. This represents less than fifty percent of its original size before the commencement of the restructuring process. All routes in Canada are anticipated to be maintained by Mexicana;
 - Reduce labor costs by renegotiating new collective agreements with the pilots and flight attendant unions (collectively the "Unions") that would include cuts of approximately 40% in wages and fringe benefits;
 - Reduce the number of airline's pilots and flight attendants by approximately 40%.

UPDATE ON MEXICAN PROCEEDINGS

20. Mexicana informed the Information Officer on August 21, 2010 that a group of investors, Tenedora K ("Tenedora"), acquired, for a symbolic amount, 95% of Grupo Nuevo shares. Tenedora's objective was to negotiate new collective agreements with the Unions and presents a restructuring plan to Mexicana's creditors.
21. On August 25, 2010, Tenedora proposed a restructuring plan to the Mexico's Labor Minister. The restructuring plan, which included laying off approximately 75% of Mexicana's flight attendants was not supported by Mexico's Labor Minister. Soon after, Tenedora announced that they were pulling out of the Mexicana restructuring process. It is unclear if the acquisition of the Grupo Nuevo shares by Tenedora will be maintained, since the restructuring plan proposed by Tenedora was not supported by Mexico's Labor Minister and that the Mexican Court is currently reviewing the transaction.

22. As mentioned earlier, on August 28, 2010, Mexicana announced the suspension of its flight services due to its lack of liquidity. Although Mexicana indicated that they would like to, ideally, resume operations in early December 2010, it is presently unclear if the Company will have the financial means to do so.
23. On September 6, 2010, the Mexican Court confirmed the Mexico's Ley de Concursos Mercantiles proceedings.
24. On September 6, 2010, Mr. Gerardo Badin Cherit was appointed Conciliador to oversee the business operations and the reorganization process of Mexicana. His appointment was approved by the Mexican Court.
25. On September 6, 2010, the Mexican Court approved the appointment of Mr. Javier Christlieb Morales as administrator of Mexicana in replacement of Alejandro Rodriguez following the refusal by the Mexico's Labor Minister to support Tenedora's restructuring plan.
26. The administrator and the Conciliador, with the assistance of the Mexican government, have since, among other things, been seeking potential investors in order to present a reorganization plan and raise new financing.
27. On October 8, 2010, IXE Group Financiero, a group that demonstrated interest into investing into Mexicana, announced publicly that it would not be participating in the restructuring of Mexicana.
28. Mexicana has indicated to the Information Officer that there were still interested investors who were trying, with the assistance of the Mexican government, to negotiate new collective agreements with the Unions and to present an acceptable reorganization plan that would allow the Company to refinance its operations and resume its operations.
29. On or before October 21, 2010, Mexicana obtained the approval from the Mexican Court authorizing a process for creditors to prove their claims. Therefore, on October 22, 2010, the Information Officer sent out a credit recognition form and instructions to all known creditors of Mexicana in Canada. In order to be recognized, this form must be received by the Conciliador's office by no later than 5:00 P.M. (Mexico City time) on December 4, 2010. A copy of the credit recognition form is attached as Exhibit "C."
30. Mexicana has informed the Information Officer that it is presently reimbursing ticket holders of Mexicana's cancelled flights ("Ticket Holders"). The Company was not able to provide the Information Officer with actual numbers concerning the reimbursement process, but indicated that they expect that all Ticket Holders should be reimbursed directly by Mexicana or, as explained later in this report, through the proposed agreement with the International Air Transportation Association ("IATA"). The Information Officer has not received any complaints from Canadian Tickets Holders and is not involved in the reimbursement process.

UPDATE ON CCAA PROCEEDINGS AND CHAPTER 15 PROCEEDINGS

CCAA PROCEEDINGS

31. Since August 5, 2010, Mexicana has been negotiating a reimbursement agreement with IATA. IATA is an international industry trade group of airlines with the objectives to represent, lead and serve the airline industry. IATA holds reserve funds for each airline company that operates internationally. Mexicana informed the Information Officer that when the Mexican Proceedings started, IATA held approximately US\$13M of cash on Mexicana's behalf. Mexicana has informed the Information Officer that an agreement has been reached with IATA on August 17, 2010 with respect to the process that will be put in place to process and reimburse Ticket Holders claims with these funds. Should there be any excess amount, it would be remitted to Mexicana. This Court is presently seized with IATA's motion to approve the agreement referred to above.

32. On August 20, 2010, Air Canada obtained an Order from the Superior Court to repossess two of its four aircrafts under leasing agreements with Mexicana. Two aircrafts were remitted to Air Canada following this Court Order that was not contested by Mexicana.
33. NAV Canada provides air traffic control, flight information, weather briefings, aeronautical information services, airport advisory services and electronic aids to navigation. NAV Canada required and obtained a deposit from Mexicana before the commencement of the CCAA Proceedings. Mexicana informed the Information Officer that at the beginning of the procedures, this deposit was approximately \$271K. After payment of Nav Canada's fees for the month of August 2010, in the amount of approximately \$98K, the deposit was reduced to approximately \$173K. Since Mexicana is presently not operating its routes, the Company has negotiated a reimbursement of the deposit to NAV Canada in the amount of approximately \$73K, which was received by Mexicana on October 29, 2010.
34. The Information Officer has requested confirmation from Mexicana that the Company's suppliers in Canada had, in fact, been paid in the ordinary course since commencement of the CCAA Proceedings. The Company has indicated to the Information Officer that it has accumulated approximately \$1.1 million of post-filing debt ("Post filing debt") since August 5, 2010, representing approximately 66 suppliers, including some of the Information Officer's and Mexicana's Canadian legal advisors' professional fees.
35. The Information Officer has requested from the Company, on several occasions that it be provided with a cash flow of Mexicana's operations. The Company has been unable to provide this information to the Information Officer. Therefore, it is difficult for the Information Officer to establish if the Company will have sufficient liquidities to survive in the next few weeks and pay its Post filing debt. As per our discussions with the Foreign Representative, it is critical that Mexicana urgently resolves its cash flow situation.
36. There are no claims in process in the CCAA Proceedings as all claims are being administered though the Mexican Proceedings.

CHAPTER 15 PROCEEDINGS

37. The Information Officer has nothing further to report with respect to the US proceedings at this time.

ACTIVITIES OF THE INFORMATION OFFICER

38. Since the date of the Canadian Recognition Order, the Information Officer's activities have included:
 - Reviewing the draft materials for the CCAA Proceedings and communicating with Mexicana's canadian counsel Borden Ladner Gervais ("BLG") regarding same;
 - Preparing for the hearing requesting the Canadian Recognition Order;
 - Posting a copy of the Court-filed documents in these CCAA Proceedings to the Information Officer's website at <http://www.deloitte.com/ca/mexicana-airlines>;
 - Coordinating publication of the CCAA Proceedings and Mexican Proceedings in the national edition of The National Post and La Presse on August 13 and August 20, 2010, as required by section 53(b) of the CCAA and paragraph 26 of the Canadian Recognition Order;
 - Various discussions and correspondence with BLG;

- Responding to inquiries of Mexicana's stakeholders since August 5, 2010;
- Preparing and mailing the credit recognition package;
- The Information Officer did not receive any requests by stakeholders' counsel to be added to the service list;
- Participating in conference calls with management of the Company, BLG, the Foreign Representative and the Company's management and advisors to discuss matters relevant to the Mexican Proceedings and CCAA Proceedings; and,
- Preparing the First Report and communicating with BLG regarding the same.

CONCLUSION

39. Mexicana is presently confronted with a critical liquidity crisis. Since the Company was not able to provide the Information Officer with any financial information it is unclear how long the Company will be able to survive without some kind of temporary financing or transaction.
40. Any potential investor who is trying, with the assistance of the Mexican government, to negotiate new collective agreements with the Unions and to present an acceptable reorganization plan, will have to act quickly if they want to be able to conclude a successful restructuring process.
41. The Information Officer was informed that the Mexican government has been highly involved in the Company's restructuring process as Mexicana operates under a government concession title to provide public transportation services. However, according to Mexicana, the Mexican government has already announced that it will not participate financially in the restructuring of Mexicana's affairs.
42. Mexicana's management informed the Information Officer that the request for an extension of delay on or before November 11, 2010 will highly depend on the ongoing negotiations with potential investors and the Unions. The Information Officer will file a supplemental report to the Court on or before November 11, 2010, should there be any material developments until then.

The Information Officer respectfully submit to the Court, this, its First Report.

Hydro-Québec alimentera le Vermont jusqu'en 2038

HYDRO

suite de la page 1

Il a souligné que le prix de six cents valait pour 2012 et qu'il était susceptible d'augmenter avec les années.

En 2009, chaque kilowattheure produit par

Hydro-Québec lui a coûté, en moyenne, à peine deux cents, grâce surtout à la grande efficacité des grands barrages de la Baie-James et du Labrador. Quant au prix moyen obtenu par l'entremise des exportations, il a atteint 6,2 cents le kilowattheure au

cours des trois premiers mois de 2010.

Le contrat prévoit qu'Hydro-Québec et les sociétés d'électricité du Vermont se partageront les revenus éventuels qui pourraient découler de la reconnaissance comme énergie renouvelable, aux États-Unis, de l'électricité produite par les grands barrages.

Plus tôt cette année, le Vermont a adopté une loi qui accorde cette reconnaissance. M.M. Douglas et Charest présentent actuellement Washington de faire de même, ce qui se traduirait par des avantages fiscaux pour les distributeurs américains et Hydro-Québec. Le gouverneur a même abordé la question avec le président Barack Obama au cours des derniers mois. Mais pour l'instant, l'enjeu est loin de figurer dans les priorités du Congrès.

German prosecutors seek reasons for citizens' deposits at Credit Suisse

HUNTING DODGERS

German authorities have asked about 1,500 German clients of Credit Suisse Group AG to provide evidence as part of a probe into whether Switzerland's second-largest bank helped them dodge taxes. The chief prosecutor's office in the western city of Duesseldorf said it had written them to ask why they had deposited their money with the Swiss bank. It confirmed a report by Swiss daily *Tages-*

Anzeiger, which printed a photo of part of the form that listed two questions — what the clients' account numbers were and why they had chosen to place their funds with a Swiss rather than a German bank. "The target of the survey is the explanation of the circumstances under which

the investments with Credit Suisse came about," the prosecutors said. "It should also be determined who participated in the engagements from the bank's side," the office said. *Reuters*

BP WOES CONTINUE

Real fishermen in Delacroix, La., who have been affected by the Gulf of Mexico oil spill have been compensated by BP.

BP finds itself caught by 'fisherman' fraud

Fraudsters pose as fishermen for compensation

BY MURRAY WARDROP

Fraudsters are posing as fishermen to con BP PLC out of thousands of dollars in compensation for the Gulf of Mexico oil spill. U.S. authorities have arrested three people in the past week on suspicion of abusing the system designed to compensate commercial fisherman for lost business since the disaster.

The British oil giant has given more than US\$308-million to individuals and businesses so far but it is feared conmen are fraudulently claiming to be fishermen to receive payouts.

To claim compensation

from BP, fishermen must prove they hold a commercial fishing licence, which can be obtained from the Louisiana Department of Wildlife and Fisheries (LDWF).

The LDWF has seen a steep rise in the number of licence applications since the spill — despite the closure of many fishing grounds due to the disaster. The trend is thought to be a result of fraudsters trying to milk the system.

It said it has sold 2,200 licences since oil started leaking into the sea following the explosion on the Deepwater Horizon drilling rig — an increase of nearly 60% on the same period last year.

Lieutenant-Colonel Jeff Mayne of the LDWF law enforcement division says some of those licences may have been used to commit fraud.

"Originally BP was paying cheques to just anybody who had a licence and that

may have spurred some of the fraud," he told the BBC. "There were no real checks and balances on whether they were really commercial fishermen."

"I would like to say I'm surprised, but I'm not. It's a lot easier to go and steal a resource than to rob a bank. I think we'll be working items associated with this oil spill for years to come."

Evidence of the fraudsters' techniques to undermine the system have also been reported by genuine fishermen.

Oysterman Pete Vujnovich of Barataria Bay said he had recently been approached by two strangers asking him to sign documents saying they had worked for him.

"Of course, I didn't sign," he said. "Some of the other boat captains have been offered US\$1,000 to sign a piece of paper vouching for other people."

BP admitted it is "likely" that its compensation scheme had been abused by fraudsters.

Allen Carpenter, one of BP's regional managers in charge of the 14 claims centres in the Louisiana, said, "There will likely be some fraudsters who made it through the initial process and received dollars.

"It's the verification we're going to go through and the special handling of those claims as they move forward in which those individuals are going to be caught."

BP has a special unit investigating several hundred cases of possible fraud. Adjusters in claims centres around Louisiana have also been warned to be on the lookout.

Mr. Carpenter added that some degree of fraud is inevitable. He said he investigated fraud cases after Hurricane Katrina, which cost authorities billions of dollars.

"Probably about 10% of the claims filed after any major event can be looked at as fraudulent or potentially fraudulent," he said.

"It brings out the unscrupulous people who see it as an opportunity to take advantage of the goodwill of others."

ING austerity puts bank back on track

New health opens door to possible takeover

BY BEN BERKOWITZ

AMSTERDAM • ING Groep has put its banking operations back on track two years after they teetered on the brink of disaster, increasing its allure as a target as it prepares to sell its insurance and real estate units.

After ING completes a European Union-mandated restructuring — some of which it is appealing against — it will be mostly a European retail and online bank, with a few international online banking sites and minority investments.

But the bank's rebound, with more than €1-billion (\$1.34-billion) in underlying profits and strong improvements in costs and revenue, has increased the possibility it could be attractive to a suitor when its restructuring is complete.

"They will be lunch rather than eat at lunch," said Fred Huibers of Dutch asset man-

ager Het Haags Effektenkantoor, assessing the group's post-insurance prospects.

ING posted an underlying profit of more than €1.6-billion at its bank this week, with stable or growing results in most regions. Costs are under control, management said, and both volumes and margins are on the rise.

It is a stark turnaround from October 2008, when ING warned of its first-ever quarterly loss, watched its shares lose a quarter of their value in one day and took a Sunday-night bailout of €10-billion from the Dutch government.

In the nearly two years since, it has battled with massive writeoffs, deep cost cuts and regulatory uncertainty to try and get its core franchise back on track.

Analysts say if the economy holds up, so will the comeback. "If it's stable and things will not worsen from here, then it's real, but if you think things are going to get worse, then it's very temporary," Mr. Huibers said.

One of the consequences of its bailout is an October 2009 deal with the European Commission that forces ING to

slim down.

If ING loses its appeal, the firm will have to dispose of its insurance, investment management, Dutch mortgage and U.S. online banking business-

es. The remaining ING would include branch banking in the Netherlands and Belgium and online banking in eight other countries.

L'Allemagne gonflée à bloc

AGENCE FRANCE-PRESSE

BERLIN — La santé éclatante de l'économie allemande devrait lui permettre d'atteindre « environ 3 % de croissance » cette année, un chiffre révisé hier en forte hausse par la Bundesbank et qui va faire des envieux en Europe.

« La dynamique conjoncturelle est favorable actuellement en Allemagne et la reprise devrait se poursuivre au second semestre », a estimé la Bundesbank dans son rapport mensuel. Cette nouvelle prévision de la Bundesbank est largement

supérieure à la précédente, publiée en juin (+1,9%). L'institution se montre également plus optimiste que le ministre de l'Économie, Rainer Brüderle, qui attend « bien plus de 2 % » de croissance. Autre signe positif, le déficit public allemand devrait être un peu moins élevé que prévu cette année. Il sera « nettement sous les 5 % » du PIB, selon la Bundesbank. Elle prévoyait jusqu'ici simplement « moins de 5 % » de déficit.

Bundesbank et gouvernement sont au diapason pour les années suivantes, avec une prévision de déficit de 4 % en 2011 et 3 % en 2012. « Sans surprise après les publications récentes, la Bundesbank a adopté un ton nettement plus positif », a commenté Julian Callow, de Barclays Capital.

L'Allemagne avait défié la semaine dernière les prévisions des analystes, affichant une croissance de 2,2 % au deuxième trimestre, du jamais vu sur un trimestre depuis la Réunification.

Sur l'année, un taux de croissance d'environ 3 % du PIB ne serait toutefois pas inédit. Le précédent record date ainsi de 2006, avec une croissance de 3,4 %, après 3,2 % en 2000.

L'Allemagne, économie exportatrice qui réagit violemment aux soubresauts de la conjoncture mondiale, est une habituée des fortes variations: l'an dernier, elle avait plus souffert que beaucoup de pays européens avec une récession de 4,7 %. Signe que les rôles sont désormais inversés, la France a un objectif de croissance moitié moindre pour 2010 (1,4 %), et le gouvernement français devrait revoir à la baisse la prévision pour 2011 (2,5 %), jugée trop optimiste, lors de la présentation du budget attendue en septembre.

Pilots warned about escaped vulture that can soar to 30,000 feet

AVIATION

Britain's air traffic controllers put pilots on alert this week after a vulture that can soar as high as 30,000 feet escaped from her handlers during a display. Gandalf, a seven-year-old Ruppell's Vulture with a three-metre wingspan, has not been seen since she caught a warm thermal during a show at the World of Wings centre in

North Lanarkshire, Scotland, on Tuesday. Nats, Britain's air traffic control company, said it had made pilots aware of the possibility of seeing the bird, while the aviation regulator, the Civil Aviation Authority, said bird strike is a constant

threat to aviation. Most airborne collisions involve birds flying into engines, forcing some aircraft into an emergency landing. In January last year, a US Airways crew ditched their plane in the Hudson River in New York, with no human fatalities, after both engines were effectively disabled by a bird strike. *Reuters*

Fed may need to buy more U.S. treasuries: Bullard

ST. LOUIS PRESIDENT

BY PEDRO NICOLACI
DA COWSTA

ROGERS, ARK. • The Federal Reserve may need to ramp up its purchases of U.S. treasury debt if price levels in the U.S. economy continue to show signs of softening, St. Louis Fed president James Bullard said yesterday.

The move was aimed at sustaining an economic recovery that looks increasingly troubled, with persistently high unemployment and a battered housing market denting consumer confidence and inhibiting business investment.

Mr. Bullard suggested this was enough for now, taking comfort in inflation expectations that he described as low but manageable. Any additional treasury buying should be undertaken in a measured, deliberate manner, he said, commensurate with the magnitude of the deflation threat.

"Large, sudden purchases rarely are optimal," he said. "'Shock and awe' is almost never a good way to proceed."

In response to the worst financial crisis since the Great

In a significant policy shift last week, the Fed announced it would begin using the proceeds from maturing mortgage securities in its portfolio to buy treasury notes, an effort to prevent monetary conditions from tightening.

But he added that, if further signs of easing price pressures were to emerge, the central bank should not be shy about using the remaining tools in its policy arsenal.

"Should economic developments suggest increased disinflation risk, purchases of treasury securities in excess of those required to keep the size of the balance sheet constant may be warranted," he said in prepared remarks.

QILAI SHEN / BLOOMBERG NEWS FILES
St. Louis Fed president James Bullard says, "Large sudden purchases rarely are optimal."

Depression, the Fed not only slashed interest rates close to zero but also bought more than US\$1.5-trillion in mortgage and treasury securities.

Following a deep recession, the U.S. economy has been growing for four straight quarters. However, the expansion was already losing steam in the second quarter, and many fear the second half of the year will be even more lacklustre.

Against that backdrop, core inflation measures, which exclude volatile food and energy prices and are therefore favoured by Fed officials, remain stuck at their lowest levels in over 40 years.

SOYEZ TOUTEFOIS AVISÉS QUE **SEULE LA VERSION ESPAGNOLE DU FORMULAIRE DE DEMANDE S'AVÈRE VALIDE ET ACCEPTABLE** AUX FINS DU PROCESSUS DE DÉPÔT DES PREUVES DE RÉCLAMATION ET QUE CETTE VERSION DU FORMULAIRE DOIT OBLIGATOIREMENT ÊTRE COMPLÉTÉE, À DÉFAUT DE QUOI **VOTRE RÉCLAMATION POURRA ÊTRE PRÉSUMÉE IRRECEVABLE, REJETÉE ET / OU CONSIDÉRÉE DÉFICIENTE QUANT À SA FORME ET / OU SON MÉRITE**. AINSI, LES PRÉSENTES INSTRUCTIONS, DE MÊME QUE LA VERSION ANGLAISE ET FRANÇAISE DU FORMULAIRE DE DEMANDE, VOUS SONT FOURNIES UNIQUEMENT DANS LE BUT DE VOUS ASSISTER ET DE VOUS PERMETTRE DE COMPLÈTER LA VERSION ESPAGNOLE DU FORMULAIRE DE DEMANDE.

Le Formulaire de demande (en version espagnole, anglais et française) est également disponible en version électronique sur le site Internet de Deloitte, <http://www.deloitte.com/ca/mexicana-airlines-fr>. Le montant de la réclamation apparaissant dans le Formulaire de demande peut être indiqué dans la devise d'origine, par exemple en dollars américains ou en dollars canadiens.

Le Formulaire de demande doit être accompagné de tous les documents justificatifs requis afin d'attester du montant de la créance et de la validité de celle-ci.

La section « **Nature de la créance** » énumère plusieurs catégories. Les créanciers fournisseurs de biens ou de services ainsi que les créanciers locateurs devraient coché la case « **Ordinaire** ». Les créanciers garantis doivent quant à eux cocher la case « Intérêt garanti sur les biens meubles ».

La section « **Priorité** » vise les créanciers réclamant un traitement préférentiel ou prioritaire en vertu des Procédures mexicaines, par exemple les créances découlant des obligations d'emploi. Si un créancier ne bénéficie pas d'un rang prioritaire statutaire, où dans l'éventualité où un créancier ignore si sa créance bénéficie d'un tel rang prioritaire statutaire, celui-ci peut indiquer à la section « **Priorité** » “*Conforme a la prelación que marca la ley de Concursos Mercantiles*”, ce qui signifie essentiellement « la priorité dont la créance bénéficie en vertu des Procédures mexicaines ».

La section « **Caractéristiques de la créance** » doit comporter une brève description des dispositions contractuelles et / ou des conditions sur lesquelles se fondent la créance. Ces termes et conditions se retrouvent généralement dans un contrat de vente, un contrat de fourniture de biens ou de services ou encore dans un contrat de louage. En l'absence de contrat écrit ou d'entente, le créancier peut inscrire la période de paiement indiquée sur les factures usuelles, par exemple 30 jours suivant la réception de la facture.

Les autres sections du Formulaire de demande nécessitent certaines informations qui devraient être facilement identifiables et disponibles pour chaque créancier.

UN EXEMPLAIRE ORIGINAL, SIGNÉ À L'ENCRE, DE LA VERSION ESPAGNOLE DU FORMULAIRE DE DEMANDE DEVRA ÊTRE DÉPOSÉ. **LES PHOTOCOPIES, TÉLÉCOPIES ET / OU COURRIELS SONT INSUFFISANTS**. LE FORMULAIRE DE DEMANDE **DOIT** INCLURE LE NOM ET LA SIGNATURE DU CRÉANCIER LUI-MÊME, S'IL S'AGIT D'UNE PERSONNE PHYSIQUE, OU DE SON REPRÉSENTANT LÉGAL AUTORISÉ, S'IL S'AGIT D'UNE ENTITÉ CORPORATIVE, AUQUEL CAS LE CRÉANCIER DEVRA ÉGALEMENT FOURNIR UNE PREUVE DE LA CAPACITÉ LÉGALE ET DE L'AUTORITÉ DUDIT REPRÉSENTANT À SIGNER LE FORMULAIRE DE DEMANDE AU NOM DE LA COMPAGNIE, À DÉFAUT DE QUOI LE FORMULAIRE DE DEMANDE **SERA CONSIDÉRÉ INVALIDE**.

PLEASE BE ADVISED THAT THE SPANISH-LANGUAGE VERSION OF THE APPLICATION FORM IS THE ONLY VALID VERSION AND MUST THEREFORE BE COMPLETED. FAILING WHICH YOUR CLAIM MAY BE DEEMED BARRED, REJECTED AND/OR SUBSTANTIALLY AND PROCEDURALLY DEFECTIVE. THESE INSTRUCTIONS AND THE ENGLISH AND FRENCH VERSIONS OF THE APPLICATION FORM ATTACHED ARE PROVIDED SOLELY FOR YOUR ASSISTANCE IN COMPLETING THE SPANISH VERSION OF THE APPLICATION FORM.

The Application Form (in Spanish, English and French) is also available electronically on Deloitte's website, <http://www.deloitte.com/ca/mexicana-airlines-fr>.

The amount claimed in the Application Form may be listed in the original currency, *e.g.* US dollars or Canadian dollars.

The application form must be accompanied by documents sufficient to demonstrate the amount and validity of any claim.

The **Nature of Claim** box lists several categories. Providers of goods or services and lessors should mark the box **Common**, unless they are secured creditors. Secured creditors should mark the box **Security Interest on Personal Property**.

The **Priority** box is intended for creditors claiming any priority treatment recognized under the Mexican Proceedings, *e.g.* employment obligations. If a creditor does not have a statutory higher priority, or is uncertain of whether its claim is entitled to such priority it may state: "*Conforme a la prelación que marca la ley de Concursos Mercantiles*," which in substance means "the priority to which the claim is entitled under the Mexican Proceedings."

The **Characteristics of Credit** box should contain a brief description of the credit terms and/or conditions on which the claim is based. Such terms are most commonly found in the contract for sale or supply of goods or services or in the lease contract. If there was no written contract or agreement the credit period stated on the regular invoices could be used, *e.g.* 30 days from receipt of invoice.

The remaining boxes in the Application Form require information that should be readily available and identifiable by each creditor.

AN ORIGINAL, INK-SIGNED, SPANISH APPLICATION FORM MUST BE FILED. PHOTOCOPIES, FAXES AND/OR EMAILS ARE INSUFFICIENT. THE APPLICATION FORM MUST INCLUDE THE NAME AND SIGNATURE OF THE INDIVIDUAL CREDITOR OR LEGAL REPRESENTATIVE OF SUCH CREDITOR (AND PROVIDE PROOF OF SUCH REPRESENTATIVE'S CAPACITY AND AUTHORITY TO FILE ANY SUCH CLAIM) OR IT WILL BE INVALID.

Le Formulaire de demande doit être **REÇU** par le bureau du *Conciliador AU PLUS TARD LE 3 DÉCEMBRE 2010 À 17H00 (HEURE LOCALE DE LA VILLE DE MEXICO) AFIN D'ÊTRE CONSIDÉRÉ COMME ÉTANT DÉPOSÉ EN TEMPS UTILE*. Le Formulaire de demande doit être acheminé à l'adresse suivante par voie de service de messagerie ou par courrier prioritaire (nous déconseillons fortement l'usage des services postaux réguliers) :

Colonia Chapultepec Morales
Delegación Miguel Hidalgo,
C.P. 11570
Mexico City
Tel. : 0155 8589 8070**

Le dépôt d'un Formulaire de demande directement auprès du *Conciliador* de la manière décrite aux présentes constitue le seul moyen par lequel les créanciers peuvent présenter un réclamation à être traitée dans le cadre des Procédures mexicaines.
